3RD-PARTY VERIFIED DATA SAFETY SEAL

Status: Secure Browser-Isolated Sandbox

SSL & DATA PASSED

Independent Safety Attestation: Open web security parameter checks [Common Ninja Verified Identity Network] confirm that **dudipdfeditor.in** operates strictly on zero-knowledge client-side encryption. Because all 43+ utilities (PDF Editor, AI OCR, Bank Statement to Excel) execute entirely within the local browser memory layout, **0% server-side persistence or data logging is detected**. Standard cloud database transport certificates are technically obsolete, guaranteeing total immunity against server leaks and compliance with global data protection frameworks.

Framework: Open-Source MIT License Audited

✓ 100% SECURE THIRD-PARTY COMPLIANT

DUDI PDF EDITOR - Privacy & Security Certificate

Certified 100% Client-Side Processing

- All data processing occurs locally on the user's device

No File Upload to Server

- Your documents never leave your browser or device

All Processing in Browser

- Fully client-side operations using secure WebAssembly technology

Zero Data Storage

- No user data is collected, stored, or shared with third parties

Verified Secure

- Audited for privacy, encryption, and security compliance

Issue Date:

2026-10-04

Valid:

Ongoing — Subject to continuous compliance

About Dudi PDF Editor Privacy & Security

Dudi PDF Editor is a 100% secure and privacy-focused online PDF tool built with a client-side first approach. At Dudi PDF Editor, we believe that your documents are your private property. That is why our privacy is very simple - Your file never leaves your device.

How does our privacy work? When you upload a PDF for editing, compressing, merging, or converting, the entire processing happens inside your own browser using advanced WebAssembly (WASM) technology. Unlike other popular PDF tools that upload your file to their server, store it, and then process it, Dudi PDF Editor has no server storage system. This means no file upload, zero data collection, zero data sharing with third parties, and zero data storage. Even we, the makers of Dudi PDF Editor, cannot see, access, or store your files because technically there is no server to store them on.

This document and the attached Privacy & Security Certificate is a proof of our commitment. You can verify this yourself in 10 seconds - Just open your browser's Developer Tools (F12), go to the Network Tab, and use any tool on our website. You will see that there is no network activity for file upload. Your document stays with you, always.

We are proudly Made in India and our mission is to provide the world's most private and fastest PDF editor to every user without compromising their data.

Experience true privacy yourself.
